

## Mini Industrial Grapple Rake

The most versatile tool in your attachment arsenal. The strength of the Mini Grapple Rake allows you to pick up a variety of debris, from logs and brush to rocks and concrete. The quality and strength of the high-strength steel used throughout gives you a grapple rake that will withstand the toughest demands.

MOVE MASSIVE BRUSH PILES WITH THE 36" GRAPPLE OPENING

LARGE SERRATED TEETH GUARANTEE A LOCK TIGHT GRIP

OPTIMAL SPACING BETWEEN TEETH ALLOWS DEBRIS TO FALL THROUGH

Take a Picture of This QR Code With Your Smart Phone to See it in Action

Teeth are constructed of 1/2" high strength steel

Greasable hinge points ensure long life

Optimal spacing between teeth allows unwanted debris to fall through

Structurally superior main frame tubed steel construction supplies the strength and power needed

Large, curved teeth provide optimal grasping of material and raking

## FEATURES & BENEFITS

- Grade 50 steel teeth nearly 40% stronger than standard steel
- 3,000 PSI hydraulic cylinder
- Curved teeth allow the grapple to glide over the ground, raking and cleaning the surface without damaging it
- Clear brush, pick rocks, and mulch
- Raking and piling, storm cleanup and demolition
- Use as a root rake and for back dragging
